Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art does not disclose a method and system for processing poultry, with the method including the steps of loading individual poultry into one of a plurality of carriers, each carrier having an identification tag associated therewith; determining a processing sequence—including selecting at least two processing stations at which the poultry will undergo processing; and processing the individual poultry in the at least two selected processing stations, with processing sequences for at least two loaded poultry carriers being different. Additionally, the prior art does not disclose a poultry processing system having at least two processing stations for poultry, with at least one station for collecting data regarding an individual poultry and one station able to change the individual poultry; a plurality of carriers; an identification tag associated with each carrier; and a control system routing the poultry carriers along an automated conveying system connecting the stations and activating the stations as needed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
